

For my project in this class, I am hoping to create a webpage centered around the history of the Chicago Bears. The Chicago Bears are my favorite football team, and I believe my site can serve as a sort of encyclopedia for fellow Bears fans. There will be various pages on the site that inform football fans. One page will describe the Bears playoff history. Another page will examine a rivalry history between the Bears and some traditional foes. I would also like to include a page exploring some of the team's greatest players.
